**Customer Testimonials**

*Ken Wilson did a great job with creating and posting my website, [www.choice-ins.com](http://www.choice-ins.com). I highly recommend his services to any small business looking to expand their advertising onto the internet.*

*Pearl Wright,  
Agency Principal  
Choice Insurance Services, Inc.*

*I needed a new look to my website. I wanted someone with creative flair and someone who I could depend on to get the job done. I found that combination in Eagle Web Solutions. Ken Wilson's expertise in web design gave me the look I wanted in my website right down to the colors and photographs he chose. The set up and the navigation of the site are very functional. I am constantly getting wonderful comments on my site now. Thanks, Eagle Web Solutions*

*Eileen Stevie, President, Stevie Organizing Services - S.O.S.

## **Top Ten Reasons Why A Business Should Have a Website**

1. It is one of the most cost effective ways to sell a product or service.
2. Allows you to target your marketing area to customers, locally, across the US, and Worldwide.
3. Provides a low cost marketing and advertising engine for your business:
  - a. Information about your products and services is available 24/7.
  - b. Information can be easily and quickly changed
  - c. Sales and Promotions are easily added
4. Levels the playing field. Online you can compete with the big guys.
5. Reduce the time you spend with potential customers explaining your product or service.
6. Satisfies people's expectation that any legitimate business should have a website
7. Allow you to support and promote your favorite cause.
8. Help generate additional revenue by selling ad space.
9. Helps find the right employees for your business.
10. Overall, helps you grow your business and soar over the competition.
